OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

April 26, 2016

Mr. Jim Messina Agent for, c/o Zoo Med Laboratories, Inc. Exponent 1150 Connecticut Ave., NW Suite 1000 Washington, DC 20036

Subject: Notification per PRN 98-10 – Add an ABN and make revisions to the product

labeling

Product Name: Wipe Out

EPA Registration Number: 69814-4 Application Date: April 6, 2016 Decision Number: 515909

Dear Mr. Messina:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

The alternate brand name Wipe Out 1 has been added to the product record.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage:

Store at temperatures below 130°F. Keep away from heat or open flame

Pesticide Disposal:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal:

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container promptly after emptying. Replace cap and discard container in trash. Do not incinerate or puncture.

[Side panel —base formula; Wipe Out 1—Directions for Use for hot rock, substrate, and cage furniture]

DIRECTIONS FOR USE

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- Kills a broad spectrum of bacteria, including *Salmonella choleraesuis* (ATCC 10708) and *Pseudomonas aeruginosa* (ATCC 15422) species.
- Animals frequently defecate on hot rocks and other cage furniture items inside your terrarium. This can result in high bacteria and ammonia levels that can lead to possible infection/disease in your animals. When used regularly, *WIPE OUT 1* can eliminate these high bacteria/ammonia levels on your cage furniture items.
- Remove hot rocks, caves, and other cage furniture items (including substrate) from your terrarium.
- Saturate the surfaces of the items by spraying on Wipe Out 1 and let them stand for 5 minutes. Then wipe items dry.
- *Substrate* (gravel) spray as above and let stand for 5 minutes. Place in bucket of clean water and "swirl" for 15-30 seconds. Thoroughly air dry before returning to the terrarium.

REMEMBER - Substrates for desert terrariums (i.e. gravel) must be completely dry before returning to terrarium to avoid high humidity levels. Always replace substrate if a foul odor persists.

Questions? Comments? Email: <u>zoomed@zoomed.com</u>, or phone (888) 496-6633, FAX (805) 542-9295.

Kills a broad spectrum of bacteria, including *Salmonella choleraesuis* (ATCC 10708) and *Pseudomonas aeruginosa* (ATCC 15422) species.

An antibacterial cleaner, disinfectant, and deodorizer for cleaning terrarium cage furniture.

Uses include:

- Hot Rocks/Reptile Rock Heaters
- Heat Caves
- Water Dishes
- Plastic Terrarium Ornaments
- Sandblasted Grapevine
- Driftwood

For use on hard non-porous surfaces.

[Side panel; Wipe Out 1-Directions for Use for terrarium and small animal cage use]

DIRECTIONS FOR USE

- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- Kills a broad spectrum of bacteria, including *Salmonella choleraesuis* (ATCC 10708) and *Pseudomonas aeruginosa* (ATCC 15422) species.
- A ready-to-use liquid antibacterial cleaner, disinfectant, and deodorizer for terrariums and small animal cages.
- [Can reduce the spread of bacterial infections in your animals.]
- Remove all animals, objects (hot rocks, caves, cage furniture, food/water dishes, etc.), and substrate from your terrarium or cage.
- Saturate the surfaces of the terrarium/cage by spraying on Wipe Out 1 and let it stand for 5 minutes. Then wipe all surfaces dry.
- Do not return animals to the habitat until it is dry and ventilated.
- Clean terrarium / (appliances / cage at least once weekly or more as needed.

For disinfecting and cleaning all cage furniture items, such as hot rocks, plastic plants, wood items, etc.

Kills a broad spectrum of bacteria, including *Salmonella choleraesuis* (ATCC 10708) and *Pseudomonas aeruginosa* (ATCC 15422) species.

[Consistent first aid statement]

FIRST AID - If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. **If on skin**: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **For any exposure**: Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

[Alternative Precautionary Statements – differ only in shock hazard statement]

[Version A – for uses on hot rock, substrate, and cage furniture]

PRECAUTIONARY STATEMENTS: Hazard to humans and animals. Caution: Causes moderate eye irritation. Harmful if swallowed; avoid contamination of foods. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

PHYSICAL HAZARDS: Disconnect electrical equipment from power source prior to and during product application; thoroughly dry equipment prior to reconnecting.

[Version B – for use on terrarium and small animal cage]

PRECAUTIONARY STATEMENTS: Hazard to humans and animals. Caution: Causes moderate eye irritation. Harmful if swallowed; avoid contamination of foods. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

PHYSICAL HAZARDS: Do not apply the product in or on electrical equipment due to the possibility of shock hazard.
